Family Room

Furniture Placement:

- The long IKEA tables should be all together, in front of window, with at least 1 foot of space between the tables and the wall/heater.
- The wooden stools should be stacked in 2-3 piles beside long tables, against the short part of the wall perpendicular to the windows.
- The book shelf should be parallel with windows, between long tables and folding wall.
- The red crescent-shaped tables should be across from long tables (near the sink), pushed together to form a circle. The red chairs should be upturned onto the tables.
- The smallest movable storage container should be against the wall beside the exit door, with at least 1 foot of space between the container and the wall/heater.
- The door mat should be on the ground at the exit door.
- The two larger storage containers should be beside one another, against the wall where the piano is, closest to the exit door.
- Piano should be between the sectional and the 2 large storage containers, against the wall.
- Sectional should be in an L-shape against the wall beside the piano, extending to the wall shared with the folding storage door.
- The small, angular table should be against the wall shared with the kitchen, under the concession opening.
- The compost and garbage bins should be between the counter and small angular table, against the wall shared with the kitchen (under the concession opening).
- Nothing should be on the counters.
- **Nothing should be against/on the folding wall at any time. Rental groups are not allowed to open/operate the folding wall for any reason.**
